

Catalog of Portraits and Figures

Canvas Creations brings you the works of the master painters!

Thank You for your interest in our product. Each unique work is hand painted by artists who aspire to illustrate the essence of treasured works of art, such as those by Vincent van Gogh, Claude Monet, Pierre-Auguste Renoir, Mary Cassatt and other great Impressionists.

Spanning more than two centuries of modern visual art, this large collection captures the spirit and scenery of Europe and around the world, as it was in 19th Century Venice, the cafes of Paris, or the serenity of a summer picnic in a forest. They also portray the inner beauty of the masters' many chosen subjects.

This is one of four catalogs we provide in Adobe Acrobat Format. This catalog showcases our collection of Portraits. Other catalogs are available that include our selection of 'Scenic Works', 'Still Lifes' and also 'People in Motion'. The paintings are hand painted artists reproductions - not duplicated by mechanical means. Prices are indicated for single purchases of unframed paintings, but they are also available framed or as part of a wholesale purchase. We also take special orders. Our complete catalog is available for viewing on the World Wide Web at:
